L’artigianalità incontra l’avanguardia tecnologica.
Noi di Penta Light progettiamo e produciamo lampade di alta qualità, dal design contemporaneo e 100% made in Italy. Nel corso di tutta la nostra storia abbiamo tradotto le idee di designer ricercati e mai scontati in oggetti in cui la bellezza formale incontra l’utilità funzionale.
In tutto quello che facciamo, ci ispiriamo all’arte dei maestri artigiani che mettono cuore, abilità e conoscenza al servizio delle loro sapienti mani. Pur rimanendo fedeli alle nostre origini, sperimentiamo nuove soluzioni e grazie allo sviluppo e all’utilizzo di tecnologia all’avanguardia arricchiamo con nuovi codici espressivi ed estetici la nostra tradizione.

Craftsmanship meets the technological vanguard.
We at Penta Light design and produce high-quality lamps, with a contemporary design which are 100% made in Italy. In the course of our history we have interpreted the ideas of sought-after and never predictable designers, transforming their vision into objects in which formal beauty meets functional utility.
In everything we do, we are inspired by the art of master craftsmen, who put their heart, skill and knowledge into the service of their skilled hands.
While remaining faithful to our origins, we experiment with new solutions and thanks to the development and use of cutting-edge technology we are able to enrich our tradition with new expressive and aesthetic codes.

GLO

Glo è un'icona della nostra collezione, una sfera di vetro che esalta il riverbero della luce, in un gioco di riflessioni e rimandi tra la lampada e lo spazio o fra le lampade tra loro. La ricca palette e le diverse misure della variante sospesa sono un invito alla composizione.

Glo is an icon of our collection, a glass sphere enhancing the glare of light, in a game of reflections back and forth between the lamp and the space or among the very lamps. The rich palette of colours and the different dimensions of the suspension lamps are a toast to creativity.

VELA

La semplicità ed eleganza formale della lampada nascondono il corpo illuminante. Vela, che emana una luce indiretta e raffinata, può vivere da sola o può essere combinata in gruppi di più lampade, in modo da ottenere composizioni sempre differenti.
